

IPMI Affiliated State and Regional Associations – Offering CAPP Points

As an IPMI Affiliated SRA, IPMI offers the ability to provide CAPP continuing education credits toward application and/or recertification.

To submit for CAPP Points for conference and training offerings, please submit the entire event agenda, as well as session-specific information, including:

- Title of education session(s).
- Length of education session. *Please note that credits can only be offered in one-hour increments on topics that are related to the [Knowledge, Skills, and Abilities provided in the CAPP Candidate Handbook](#). 1 hour of education = 1 CAPP Point. No partial credit is available for shorter sessions.*
- Session description/narrative.
- Presenter(s).
- Learning objectives.

Please submit to Kathleen Federici, Director of Professional Development at federici@parking-mobility.org for consideration. Kathleen will review the education session information provided against the CAPP Job Analysis and award credit for the approved sessions. Once you have received notification via email, the SRA can begin to market the sessions as providing the assigned number of CAPP Points.
